**Medical check** When you start at Nijmegen-Rotterdam you should be healthy. A medical check is recommended.

**Transportation.** RWV will take care of transportation of one piece of luggage per participant. This will be available in all indoor rests. (Ede, Leersum, Bunnik, Nieuwegein, Oudewater en Waddinxveen). It should be enough to take a bag of around 15 kg. We encourage you to limit your bag to this. If needed we will transport an additional bag that you will receive at the finish in Rotterdam.

**Safety** You must wear a vest with reflecting material from Ede (about 40 km) until the moment it is fully light again the next morning. You can buy this vest at the start (5 Euro) if you do not have one. We recommend taking a flashlight with you for the parts of the route where it can be very dark.

**Walking speed** The organization of Nijmegen-Rotterdam is based on the historic schedule of 160 km in 29 hours. A walking speed of 7.0 km/hr is the ideal speed, although in practice faster or slower is possible. At each indoor rest (at about 40-60-80-100-120-140 km), we will re-start with all participants. This means that the time you will be at these rests, depends on the time it took you to get there. The schedule below shows the average time in the indoor rests at a given walking speed.

Speed = km/hr	9,0	8,0	7,0	6,75	6,5	6,25	6,0
Time in rest = min	85	70	45	35	25	20	10

These are approximate times. Only a short stop at the outdoor RWV feeding stations is taken into these calculations. If you spend more time at these rests, your period in the indoor rest will be shorter. If you walk too slow, it can be that we are not able to support you anymore and you will be disqualified. If you are too fast, you might encounter that the feeding station or the rest is still closed.

**Rests** The RWV outdoor feeding stations and the indoor rests are located at regular optimized places. The schedule below shows the expected departure times from Heteren (large outdoor rest) and the 6 indoor rests.

Rest	Km	Depart
Start	0.0	11:00
Heteren	18.5	14:00
Ede	37.2	17:15
Leersum	57.4	21:10

Rest	Km	Depart
Bunnik	79.7	1:10
Nieuwegein	98.4	4:45
Oudewater	117.9	8:30
Waddinxveen	138.9	12:25
Finish	159.6	

The above schedule is based on the latest information available. The real schedule might deviate due to changes in the walking route. The organization can change the schedule at all times if needed.

**GPS** The locations of all feeding stations and rests are available for GPS users. Send an e-mail to [GPS@RotterdamseWandelsportVereniging.nl](mailto:GPS@RotterdamseWandelsportVereniging.nl) with the requested file format to and we will send you this information by e-mail.

**RWV – Sportiek** At the start / finish the following items are available:

- T-shirts with Nijmegen - Rotterdammars 160 km
- Badge with the logo of Nijmegen-Rotterdammars 160 km
- Reflecting vest with Nijmegen - Rotterdammars 160 km

**Rules** The start takes place at exactly 11:00. Until after the bridge over the river Waal you need to stay with the group. After that, until the larger outdoor stop in Heteren at about 20 km you need to keep in such a distance of the group that walks at a speed of maximum 7.0 km/hr, that you can see them at all times. The walking speed is indicated by two experienced walker. You are not allowed to pass them. After Heteren the walking speed is not regulated with only the following limitations: The announced times that we leave from the indoor rests are fixed.

Also from Waddinxveen the maximum walking speed will be regulated at about 7.0 km/hr. The last few kilometers are walked together as a group.

When a participant walks too slow and he can not be supported anymore by the RWV-team, he will be considered disqualified.

Participants must wear a vest with reflecting material from Ede (about 40 km) until the moment it is fully light again the next morning.

Participants are not allowed to follow other ways than the marked route, or go to other restaurants/bars than the official rests.

All directions of the leader of the march, the police and/or the medical team should be followed. RWV can not be held responsible for any accidents and/or damage before, during or after this event.
